# HFS ULTRA-HIGHLIGHTS FOR THE YEAR 2020-2021

It gives us great pleasure to showcase the high points of this Year 2020-21 which have been spectacularly achieved by our students and teachers. These proud moments resound the name of our school all across the globe as we have competed and won in diverse event categories. We have triumphed both in academic and non-academic domains. Here, are some smashing events that took place under the HFS banner.

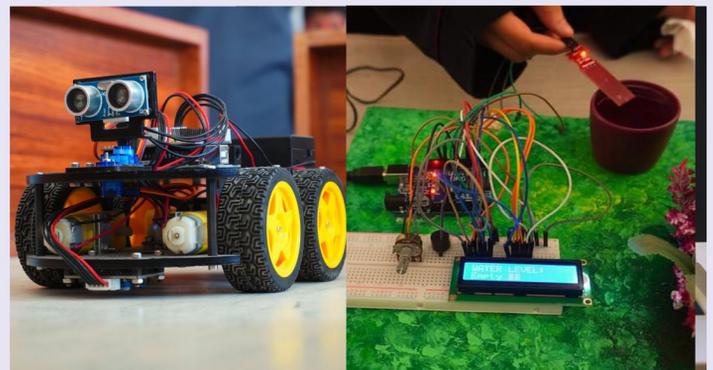

## CAIE High Achievers

Alhamdulillah, our students secured A\*s & As in the CAIE examinations held in 2020-21. It was an amazing 100% result with the superb efforts of our expert teachers and exceptional students. HFS entered the High Achiever category with its A-Level student, Muhammad Aaqil, who was awarded Best Across 3 subjects in Pakistan and Topped in Accounting in Sindh & Balochistan.

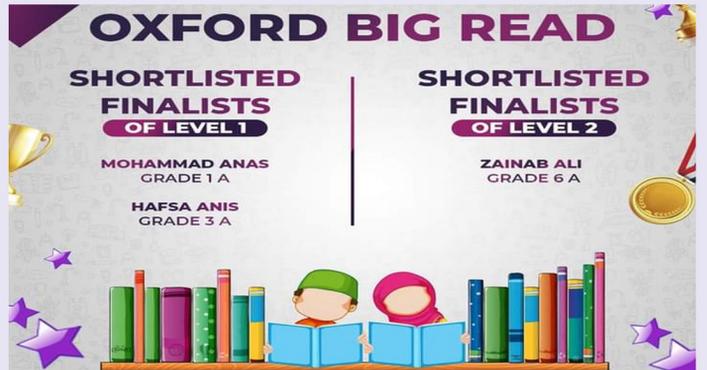

## ICATS Contests

Our students participated in the renowned ICATS Art, English, Mathematics, Science and IT Contests which were held across grade levels. Our young ones participated in the competition enthusiastically and bagged prizes. It was commendable to have winners across school, provincial and national levels. ICATS winners were awarded certificates and medals for their outstanding performance and the school received cash prizes for unmatched overall performance.

## Robotic Exhibition

We hosted an incredible intercampus Robotic event to share and display the progress of the ingenious students to showcase their tech-spurred projects. The wide Robotic range comprised a smart house, moisture and water level detector, automatic car parking, speed detector to various types of cars and motion detectors.

## Oxford Big Read

To encourage the students towards reading, HFS took this constructive step to enter into the popular OBR Competition. Our students had to read the books and write reviews on them. This was taken up passionately by our English team as we competed at a national level. Three of our students got shortlisted from different grade levels. This was a huge boosting factor as more and more were attracted towards reading.

## A-Level Cricket League (ACL)

The showstopper was the inter-school A-Level Cricket League which was arranged with branded sponsors and well-established A-Level schools across the city. This spectacular sports event was organized to promote the well being of students so that they flex their abilities in such a grand tournament with a high fitness level. ACL was a sure hit way to attract the students towards co-curricular activities and become an all-rounder in both academics plus sports.

## Musabaqa Quran

We organized an upscale Quran competition where students recited Quran beautifully. Their melodious voices reached far and wide as they competed enthusiastically. Known judges evaluated the mesmerizing recitations. The winners and participants were awarded certificates and prizes.

## Culinary Awareness Program

We organized a Culinary Awareness Program collaborated with Karachi Young Chefs Club (KYCC) team. The session was held to create an appreciation of the culinary arts among the students, imparting them with new skills and valuable knowledge. This session was conducted by award-winning chefs and a shield was presented to HFS for this collaborative venture.
