

HIRA FOUNDATION SCHOOL

A LEVEL

HIGHWAY TO HIGHER EDUCATION

Welcome Message

INTRODUCTION HYBRID A LEVEL PROGRAMME

We are extremely delighted to launch our hybrid A Level programme with top of the line education and facilities. This innovative programme is part of a fully Shariah compliant school system which operates across digital platforms to offer education both on campus and online. In an evolving educational ecosystem where virtual portals are becoming the norm to impart knowledge and skills, Hira Foundation School stands in the forefront to unlock future-ready learning via flipped classrooms with flexible pathways.

VISION

To facilitate students to become well educated, successful and practicing Muslims for the pleasure of Almighty Allah.

MISSION

Provide quality education with a unique blend of modern and traditional disciplines.

GLOBALLY RECOGNIZED EDUCATION

Here at Hira Foundation School, we offer Cambridge qualifications which are recognized and valued worldwide. These are accepted by top tier universities and institutions across the globe. Every year thousands of students gain admissions into renowned colleges and universities on the basis of their excellent CAIE results. Our A Level programme chalks out a learning pathway with robust curricular frameworks for the students to achieve their higher education goals with a laser focus. It hones them into confident critical thinkers who are ready to take on the challenges of the real world with futuristic mindsets.

ON CAMPUS & ONLINE STUDY OPTIONS

Hira Foundation School is the pioneer in launching the hybrid A Level programme in which students have the amazing advantage to study wherever they want to as both on-site and online options are available.

Now, doing A Level is easier than they think. With such an incredible opportunity, students are able to select their subjects and study these in the comfort of their homes with reduced transport costs. Also, with the perks of e-resources, flexible schedules and virtual activities.

SUBJECT STREAMS

Here, our students get a wide range of subjects to opt from namely;

English

Urdu

Biology

Chemistry

Accounting

Physics

Economics

Sociology

Psychology

Law

Mathematics

Computer Science

Business Studies

Students are able to choose various subject groups which open up engineering, medical, IT, social sciences fields and more. This ultimately helps them decide their career paths. They are well guided through open days and orientation sessions where faculty introductions plus interactions take place to assist in subject selection.

SCHOLARSHIPS

Hira Foundation School offers merit and extracurricular scholarships which are quite attractive. Scholarships up to 60% are available with a varying range as well as take advantage of the flexible admission criteria. Not to mention, they are able to get the early bird discounts which is a huge reduction as compared to the other A Level schools with exclusive benefits.

Renowned Faculty

INTERNATIONAL STANDARDS

There is no compromise on quality at all. Hira Foundation School recruits top notch faculty who are renowned and know how to get the best results. We have Cambridge certified male and female faculty in our teaching suite who are experts in their fields of knowledge. There are also Cambridge subject moderators and trainers on our robust academic platform. They are on the school panels of well known A Level schools as well with an added privilege of teaching here. So, our students are taught by popular faculty with guaranteed results.

SHARIAH COMPLIANT SYSTEM

Hira Foundation School under the prestigious banner of Darul Uloom, exudes the sanctity of this world renowned Islamic seminary. Our strong USP is that this educational system is built on strong Shariah Compliant principles which allow the students to bloom their characters with rich values to lay the grounds for a morally sound society. Nestled in the peaceful and panoramic surroundings, Hira Foundation School marks the epicenter of educational excellence driven forward by the Islamic practices in daily routines under the distinguished supervision of award winning Muslim scholars. Indeed, it represents a commendable combination of modern and traditional education.

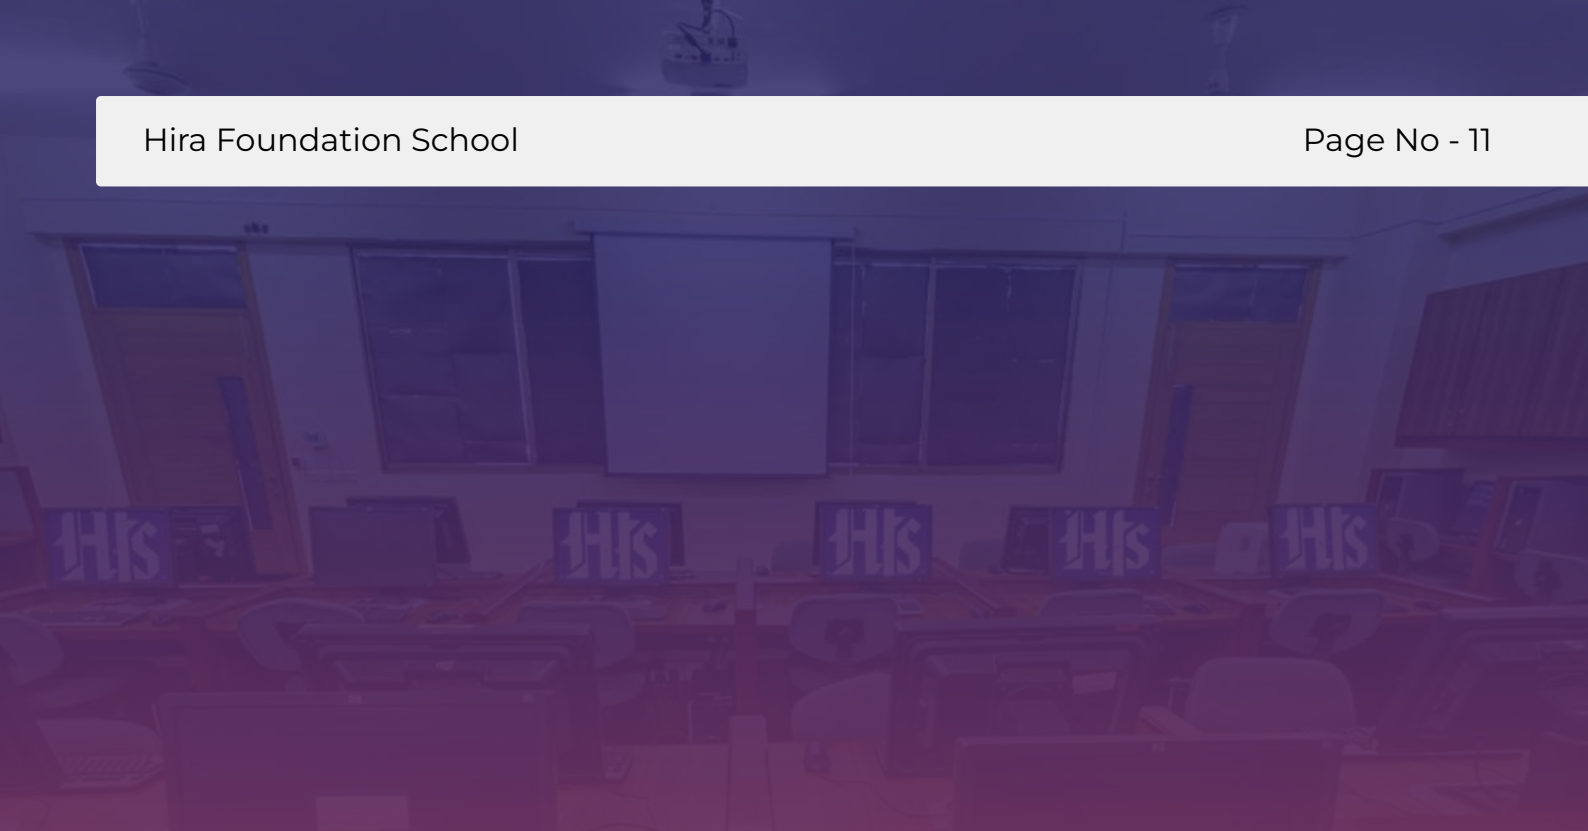

PURPOSE BUILT CAMPUS

Beautifully architected campuses are sprawled over acres where students gain the opportunity to learn and unlock their potential in a highly conducive environment. The knowledge rich ambience with long corridors, high ceilings, glass enameled classrooms, wide desks, long back chairs, large storage spaces and well ventilated openings give unimaginable freedom. Our students study within student friendly classrooms and enjoy the openness which allow actions and thoughts to flow unabated. Inshort, a bespoke environment for learning.

STATE OF THE ART FACILITIES

Hira Foundation School functions within purpose built campuses with fantastic facilities for our students to engage in and offer a holistic educational experience. We offer segregated set ups for boys and girls who are taught by male and female faculty respectively. A large cricket/football ground is built right next to the campus where inter school competitions are held with representation of reputed schools. Sports week is conducted annually and students get a chance to participate in a variety of events which boost their sportsman spirit. Inside too there is a specially designed area to hold throwball and volleyball matches. An Olympic size pool with temperature control is there with trained instructors for student use with scheduled swimming classes in the time table - a rejuvenating experience indeed.

The interactive teaching approach leads our students to spiral upwards in their academics using the rich resources while working with digital ease. Not to mention, a fully equipped gym with the latest equipment. Best way to keep in shape and totally free of cost. This is quite popular among the students where they are able to use all kinds of exercise machines. The large surround sound auditorium is the perfect place for our students to perform plays, skits and speeches with parents as the keen audience. Award ceremonies are held there to recognize the achievements. State of the art computer labs with hi-tech computers and high speed internet allow our students to have a hands-on training on digital tools to make them skilled for the real world. Each classroom has a multimedia setup for teachers to impart their teaching with the latest tech tools and optimize the learning of students.

A library on every floor ignites the reader within and facilitates them in their research projects. The vast collection of books and literature refines their skills and keeps their passion for reading burning. There are well equipped student lounges and common rooms where they are able to relax with a designated prayer area. This provides a good way to bond with their batchmates and rejuvenate their energies before the next learning session. Further, the canteen area awaits them with savory snacks to appease their hunger. They are able to cool off with the refreshing juices and take a quick bite to replenish themselves. In addition, there is a door to door transport facility with a fleet of well maintained vans picking and dropping the students off - a safe and secure commute.

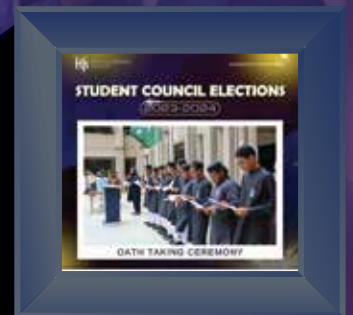

EVENTS & SOCIETIES

Our students get several opportunities to participate in extracurricular activities and events to showcase their talent. They have received special mentions and honorary accolades in MUN -Model of United Nations. They have unleashed their digital prowess and creativity through their exhibited inventions plus projects of international standards through events like Technovation. Our students lead in organizing events, donation drives, exhibitions and carnivals. Their presentation and public speaking skills are boosted through ongoing assembly speeches, debates/declamation contests and even podcasts with professional training as to how to face the camera while speaking on trending topics.

Through STEM societies, our students learn how to craft models and work in teams driven by science, technology, engineering and math fields. They are trained by society patrons who instill in them the curiosity and a thirst for knowledge of these domains with the real world practicality of it. Moreover, sports competitions are held frequently which include cricket, football and swimming meets. So, our students are not only mentally challenged but physically tested to perform too. This certainly adds on to their overall development and sportsmanship. They have won national and international tournaments which have tested their resilience and grit, while emerging victors under the training of our best coaches.

EVENTS

A group of students wearing red safety vests are standing behind a table covered with a white cloth. They are holding various food items, including boxes of 'CHISEE' brand food and bags of 'BAJDA'. The background is a solid red color.

COMMUNITY SERVICE

Service to society is our top priority here in our A Level programme. We ensure our students are able to participate in community service programs which awaken in them a sense of giving and helping those around them. We go out of the way to enroll our students in hospitals, state-run schools, welfare organizations, community projects and more. They have worked with renowned organizations such as Indus Hospital, World Wildlife Fund (WWF), The Citizens Foundation (TCF), Darul Sukoon, SOCH Foundation and others. Our students have contributed immensely in programs of worth to uplift the less fortunate segments of our society. All year round, our students are educated and made aware of the plight of others so that they are able to support them in every way possible - emotionally, morally or financially to ease their difficulties.

CAREER COUNSELLING

Here, our students are well enlightened about the university options they are able to gain admission into. Our career counsellor is there to provide them with the much needed directional support so they aim high and at the right place. They are well guided and facilitated in the university admissions so they are able to make well informed decisions about their future. Each student is different and with a defined pursuit which needs to be catered to. The counsellor is available to make sure that every student is able to tread the path and reach the goal while taking advantage of all the beneficial information out there. Moreover, assistance is provided in test preparation so the students clear the admission tests and emerge proud entrants of the universities of their choice.

Habib Campus Visit and Tour

UNIVERSITY ADMISSIONS

We take pride in our alumni. In the past years, our students have gained admissions into top tier business, engineering, medical and IT universities which is a testament of our high academic achievement. Our students have been successful in bagging admissions into the well reputed

NED University

Dow University

FAST University

Cambridge A Level Accounting

Best Across 3 Cambridge A Levels

HFS A Level (Batch of 2020)

My time at HFS A Level was memorable and milestone making. I got valuable exposure through visiting a number of colleges and universities for extracurricular activities and won trophies too. The most valuable asset was the exposure to renowned national and multinational corporations for the Events Organization here. Meeting new people, attracting participants/sponsors and taking risks to organize events of different nature gave me the courage and confidence to initiate my new venture Solar Solutions that is purely based on project management.

I am currently associated with Pakistan's top Solar Brand INVEREX as the authorized dealer and simultaneously enrolled at Iqra University. Seeing my batch-mates part of well known universities and professions makes me feel proud of our hard working teachers and visionary management. What was so special for me in this leading A Level programme was that I got enrolled here on scholarship based on my exceptional academic and extracurricular performance which developed my entrepreneurial mindset and career pathway.

Testimonials

Hafsa Jawaid
Alumna

HFS A Level (Batch of 2023)

I will always be humbled and grateful for all the knowledge and skills I have learned at HFS A Level. The institution's dedication to academic excellence, coupled with its diverse and talented faculty who have taught with all their heart and soul, has undoubtedly contributed to its positive standing. I've grown not just in knowledge but as an individual, navigating challenges, forging friendships, and embracing diversity. Fortunately, I got lifetime friends from there who are my great pillars for now and forever. When I think of happiness, I think of my college days which led to the pursuit of my dream career in Karachi Medical & Dental College (KMDC). Hence, its A Level is the best programme which is the gateway to the top universities.

Testimonials

Zainab Arshad
Alumna

HFS A Level (Batch of 2023)

As someone who was fond of studying Social Sciences since O Level, I found HFS A Level a great and unique place to opt for A Level. As my alma mater not only did it allow me to pursue what I always wanted but also with the right Islamic knowledge and inculcation. I will always be truly and sincerely grateful to this institution for shaping me as an individual and for paving my academic path to the prestigious Habib University. The highly qualified faculty here are not only teachers, but great mentors, who are always ready to give you advice and support you. It will always be amongst the memories I will cherish for life. I recommend its A Level programme which is a well tracked route to higher education.

Syed Huzaifa Ali
Alumnus

HFS A Level (Batch of 2020)

My time at HFS A Level was truly a transformative experience that exceeded my expectations. The exceptional faculty, supportive community, and diverse opportunities for growth fostered a rich learning environment that honed my academic and personal skills. With the solid foundation built at my alma mater, I successfully gained admission to the prestigious NED University of Engineering, one of the most esteemed institutions in the country. Today, I am proudly completing my Bachelor's degree in Engineering, a testament to the academic excellence and guidance provided there. I am forever grateful for the unwavering support and guidance that paved the way for my success. I wholeheartedly recommend its A Level programme to anyone seeking a world-class education – a strong foundation for future success.
